Manufacturers' Delegates Call on President-San Francisco Collectorship.

THE NEW ASSOCIATED PRESS—F.M.1

W ASHINGTON, Dec. 18.—The bill to provide revenue temporarily for the Philippine Islands passed the House today by a vote of 183 to 128. Five Republicans, Messrs. McCall of Massachusetts, Littlefield of Maine, Heatwole, Eddy and Stevens of Minnesota, voted with the Democrats against the bill, and three Democrats, Messrs. Robertson, Davey and Broussard, of Louisiana, voted with the Republicans for it. Mr. Meyer (Dem.) of Louisiana, was paired in favor of the bill, while Mr. Foster, an Hilinois Democrat who voted against the Porto Rican bill in the last Congress, voted for the Philippine measure today. Mr. Crumpacker of Indians, who also voted against the Porto Rican bill, was absent. E NEW ASSOCIATED PRESS-P.M.1

Representatives above mentioned voted against it. Mr. Meyer of Louislana was paired against it. The speakers today were Messrs. Hepburn of Iowa and Dalzell of Pennsylvania for the bill, and Messrs. Henry of Texas, Williams of Mississippi, McCall (Rep.,) of Massachusetts Clarette Land sachusettis, Green of Fennsylvania and McClellan of New York against it. The bill passed today imposes the Dingley tariff rate on goods entering

the United States from the Philippines, and the rates established by the Philippine Commission on goods entering the Philippines from the United States. It also provides for the collection of tonnage taxes on vessels plying between the United States and the Philippines, and that foreign vessels may ply between these ports until January 1, 1965. The duties and taxes collected under the provisions of the bill shall go into the Philippine treasury, to be expended for the use and benefit of the islands.

WASHINGTON, Dec. 18.—[Exclusive Dispatch.] Said a Republican member of the House Ways and Means Committee tonight: "When the House today passed the Philippine Tariff Bill imposing the full Dingley rates against goods coming here from the Philippines, it killed all chances that the Cubans have for lower tariff rates upon their sugar and tobacco, and insured to the American beet-sugar producers complete protection for their products. After doing this thing against our own possessions, the House cannot possibly now turn around and give the Cubans better tariff rates than we give to our tropical islands and one beet-sugar and tobacco producers. be preposterous.

"For myself, I favor giving the Cubans better rates, but a realize that it cannot be properly discussed after this act. For this reason, there ought to be great rejoicing among beet-sugar men, and I presume there will be rejoicing when the regult of the vote becomes known."

WASHINGTON, Dec. 18.—[Exclusive obligatch.] Last night's dispatches to The Times related how Assistant-Secretary Taylor feels about the improvements being made to the Los Angeles postoffice. There is another important Taylor in the Treasury Department in the person of Supervising Architect Taylor. This Mr. Taylor, in discussing the matter today, said:

"Mr. McLachian, the Representative from Los Angeles district, has been here talking with me about an additional appropriation for the postoffice building at Los Angeles. Mr. McLachian, when he brought the matter before the department, did not know whether it would be possible to divert the present appropriation of \$250,000 toward starting a new building, or not. We have referred that question to the Comptroller of the Treasury, and he decides that we cannot start the new building with this appropriation, but must devote it to the purpose sepecifically provided in the act appropriating it—that is collarging and remodelling the decided and manufactured.

it—that is enlarging and remodelling it—the suilding.

"We have as yet had no request from Mr. McLachian or anybody else to hold up the present contract. I suppose if such a request were to be made, we would give it serious consideration, and I am willing to say now that we might grant such a request if it were backed by the people of Los Angeles through their business organizations. Then, after we had suspended work upon the present contract, I suppose that suspension would last until Congress had either appropriated more money for a better building or had refused to do so.

Rear-Admiral Schley, through his counsel, filed with the Secretary of the Navy his bill of exceptions to the majority findings of the court of inquiry, and also a letter asking to be allowed to be heard in connection with the objections to be filed by the attorneys for Rear-Admiral Sampson to the individual opinion of Admiral Densey. Evans falled to communicate to Commodore Schley the meaning of the signal lights on shore at Clenfuegos; that Commodore Schley, as proven by the evidence, had no knowledge of those lights until the night of May 23, 1898; that the majority of the court are silent in reference to masking the movements of the "Flying Squadron" in front of Clenfuegos; that the majority based their opinion as to the retrograde movement upon a statement that Commodore Schley, before sailing from Clenfuegos, had reliable information that ships could be coaled in the vicinity of Cape Crus and Gonalves Channel, whereas, it is denied that there was any such positive information, and that the records show that not until three days after leaving Clenfuegos did Commodore Schley received no positive information front the scout ships as to the enemy's presence in Santiago Harbor, because Capt. Sigsbee had reported to Commodore Schley that the Spanish fleet was not in that harbor.

The bill denies that the conditions of sea wind from May 28 to June 1 were favorable for taking coal from a collier off Santiago; it also claims that the coal charts submitted in evidence, showing the chasing capacity of the "Flying Squadron," have been ignored; that no reference has been made to the orders of the Secretary of the Navy forbidding the hazarding of American ships against shore batteries; that the majority opinion failed to contain any reference to the character of the blockade of Santiago, although covered in reference to the character of the block-ade of Santisgo, although covered in the specifications; that the demonstra-tion made by Commodore Schley before Santisgo on May 29 and 30 was pre-determined, and executed solely as a reconnaissance, and not as a formal attack upon the Colon or the other miral Dewey. This action was taken after Mr. Rayner, Mr. Teague and Capt. Parker of counsel had held a consultation throughout the day with their client.

Secretary Long, almost immediately after the receipt of the communication called Judge-Advocate Lemily and the solicitor for the department, Mr. Hanna, into conference. At its conclusion the Secretary said that he had no statement to make regarding any action that he might take in the premises. He, however, indicated to Mr. Teague, through the Judge-Advocate, that he would not hear an oral argument by Mr. Rayner regarding Rear-Admiral Sampson's protest, but that he would receive a written statement.

It was expected that counsel for Rear-Admiral Sampson would file their objections to the findings of Admiral Dewey in the case today, but it is now stated that such objections may not be offered before Friday.

The bill of exceptions declares that the explicant "objects to the approval of the reports of facts made by the majority of the court, in their said opinion, have ignored the whole of the applicant and of the whole of the

The bill concludes with the statement that the proceedings of the majority of the court were irregu-lar; that Rear-Admiral Schley's rights have been prejudiced, and his testimony in many particulars not considered, and that the evidence is absolutely insufficient to sustain the opinion which has been rendered; and that, therefore, a grave and irreparable injustice has been done bim.

BERLIN, Dec. 18.—[Exclusive Dispatch.] Speaking today of Andrew Carnegie's offer of \$10,000,000 for a national university at Washington, Dr. Kekule von Stradonitz, rector of the University of Berlin, expressed the opinion that America must guard against the danger of fostering higher education at the expense of practical intelligence and the development of a native spirit. Too much learning, he said, if not a danger, is at least unprofitable.

Judge-Advocate commodore Schley was derelict in the discharge of his duties; that the majority of the court failed to determine who was commander-in-chief in the battle of Santiago, which finding was necessary to determine the first specification of the precept as to the conduct of Commodore Schley.

OUR GOVERNMENT SHOULD INTER VENE IN SOUTH AFRICA.

Says We are Under a "High Moral Obligation" to Do So and That Such Action Would Force Great Britain

BERLIN, Dec. 18.—[By Atlantic Ca-ble,] A curious article has appeared in the Kreus Zeitung, which, although it cannot be called even a semi-official in the Kreuz Zeitung, which, atthough it cannot be called even a semi-official newspaper, sometimes reflects government views. The article dwells on the alieged probability of American intervention in South Africa, remarks that the President is not in harmony with the bulk of public sentiment, and adds:

"Americans must remember that in 1783 the Union would not have been possible except through foreign intervention. If there are far-seeing statesmen in America, it must be hoped that they soon will see that they are under a high moral obligation to intervene in South Africa, and that they are strong enough to do so effectively."

The agticle goes on to say that the United States occupies a unique position, being without powerful military rivals across her borders; that she would need only to give orders to march on Canada to bring Great Britain to terms, and if she took such a step she would win the sympathies of the Christian world.

the Christian world.

The editor of the Kreuz Zeitung interweaves much talk in this article about corruption in high places in the United States, and the dominance of plutocracy there, all of which, he says, would be forgiven her if she would only intervene in South Africa.

IBY THE NEW ASSOCIATED PRESS_P MI WILLEMSTAD (Island of Curacao) Dec. 18.-IBy South American Cable.1 La Republica, the Venezuelan official organ at Caracas, published an editorial yesterday ending as follows:
"If the German government is informed that the presence of a few warships will suffice to effect an arrange-ment of her outstanding claims, it has been deceived. Venezuela is conscious that she is an independent nation, the that she is an independent nation, the equal of the other powers, and she is determined to defend that independence and equality. She is desirous of peace, but if necessary, she can cause hurt to her enemies, and exercise terrible reprisals. Gen. Castro is determined on this. He will in no case suffer Venezuela to be humilisted or allow her rights to be despised."

Other Venezuelan papers comment upon the situation in a similar strain. There is excitement in Caracas over the military scandals involving Gens. Davila and Sanchez. After his appointment as commandant at Caracas, Davila insulted the War Minister. He has now been deprived of his command.

The government, at ments against alleged violators of the land laws, charging that they committed perjury. The government, at the same time, sued United States Senator Clark, in whose name title now rests, to recover 30,000 acres, valued at \$500,000, which, it is claimed, were taken up in regular manner by men, women and children at the instigation of Clark's agent for \$100 each, and afterward deeded to him, who in turn transferred them to Clark. Clark declares he was an innocent purchaser.

The matter is now being heard before the Master in Chancery, and in testifying before him today, C. L. Griswold confessed to perjury at the Helena Land Office and at Missoula. He admitted receiving \$25 for this special case, as well as other sums in various instances. Asked why he perjured himself, he said it was necessary to secure pay under his contract with Cobban, Clark's alleged agent.

CHICAGO, Dec 18.—Samuel Stevenson, brother-in-law of "Dr," John Alexander Dowie, in Judge Tulsy's court today, again charged the self-preciaimed "Elijah the Second," with having fraudulently secured his signature to a contract which he alleges defrauded him of \$185,000. The contract, called "The Private Agreement," was produced in court, but Stevenson disclaimed any knowledge of having signed this particular instrument. He said he knew he had signed an agreement, but he charged Dowie with having had him under his influence at the time of the signing of the papers to such an extent that he might have signed anything Dowie wanted him to sign. He told of how he and Dowie held a night seession of prayer when the agreement was signed; how he had implicit faith in Dowie and all he did, and how he even left all the legal technicalities of the agreement to Dowie's own lawyer.

MILITARY RATE POOL

No Agreement Yet Reached by the Western Roads—Reduction to Be Made

in Colonist Rates from Chicago.

IBY THE NEW ASSOCIATED PRESS—P.M.1
CHICAGO, Dec. 18.—No agreement has yet been reached between the western roads as regards the proposed reorganisation of the military-rate pool.

The special compilities appointed to ern roads as regards the proposed reorganization of the military-rate pool. The special committee appointed to prepare a plan of action that would obviate the objections of the Southern Pacific to the old agreement was not ready to report to the general meeting today, and it was instructed to report tomorrow. It is generally understood that the existing difficulties will be overcome and the military-rate pool be given a new lease of life.

The colomist-rate question was up for consideration all day, but no definite conclusion had been reached at the time of adjournment.

It is found absolutely necessary to make a material reduction in the colonist rates from Chicago, on account of the low rates just put into effect from St. Paul by the Great Northern and Northern Pacific roads. The question under consideration by the western roads is what should be added from Chicago and St. Paul in connection with the rates.

SEVEN YEARS AT FOLSOM.

IBY DIRECT WIRE TO THE TIMES, I OROVILLE, Dec. IS.—[Exclusive Dispatch.] When the Superior Court of Butts convened, this afternoon, and the room was crowded with spectators to hear the sentence of Dr. A. J. Landis, convicted of forgery, an affilidavit was presented from Supervisor Fimple, showing that one of the jurors, W. O. Nelson, had stated to Fimple before being called as a juror that he guessed all who were interested in the Fuller matter were guilty. On this statement and on statements made by the District Attorney during his address to the jury they asked for a new trial. This was denied. Motion for arrest of judgment was also denied, and the defendant was told to rise and receive his sentence.

Judge Caddis said he would take the luty to perform to the State and per ple. He considered that it was just as serious a crime to forge a note as to go upon the highway and hold up a stage. He then sentenced the defendant to seven years at Folsom.

LOOKOUT LYNCHING.

HARD TO MAKE A CASE.
THE NEW ASSOCIATED PRESS-P.M.] HARD TO MAKE A CASE.

BY THE NEW ASSOCIATED PRESS—P.M.]

ALTURAS, Dec. 18.—In the Lookout lynching case the examination of Robert Courtwright was finished this afternoon. Nothing of importance was gained from his testimony. Attorney Raker, for the defense, put a plan of Trowbridge's store before him this afternoon, and he pointed out where he was in the store when he stated he saw Myers and others in the back room tying loops in some ropes, and also his position when James Brown, the defendont, came into the store with a lady. Where he located himself on the diagram it would have been impossible for him to have seen into the backroom where he alleges the parties were tying ropes.

It is very probable that the defense will close their case without putting any witnesses on the stand at all, or if any, only character witnesses.

The grand jury is now in session, but it is not expected that they will find any other indictments, as Dist.-Atty. Bonner is advising them against this course. He deems it impossible to secure conviction.

GRIFFITHS CASE.

INVESTIGATION FUTILE. GRASS VALLEY, Dec. 18.—After more than a week of mysterious examinations and questions, the grand jury ended its labors today without bringing in a true bill against anybody in the Griffiths murder case.

The jury makes this statement: "We are unable to find a true bill for the reason that it is impossible to determine as a fact that the crime has been committed."

committed."
Farther along in the report an almost contradictory statement is made as follows: "Nevertheless, under the suspicious circumstances surrounding the disappearance of Griffiths, and the finding of the body, we, the grand jury, believe that a murder has been committed, and therefore recommend that the Governor of this State, and the Supervisors of Nevada county offer appropriate rewards for the arrest and conviction of the murderers of said Griffiths."

HOW TO FIND OUT.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains the linen—it is evidence of kidney trouble; too frequent desire to pass it, or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO. There is comfort in the knowledge so often expressed that Dr. Klimer's Swamp-Root, the great kidney and bladder remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it is the deficient of the party of ability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle of Swamp-Root and a book that tells more about it, both sent absolutely free by mail. Address Dr. Klimer & Co., Binghamton, N. Y. When writing mention that you read this generous offer in the Los Angeles Daily Times.

DERKINS OUT FOR LYNCH.

Will Stand in the Way of a Removal or an Investigation.

WASHINGTON, Dec. 18 -[Exclusive Dispatch.] Senator Bard and State Senator Belshaw of California had another conference with the President about the appointment of a Collector of Internal Revenue of San Francisco, to succeed Lynch, who now holds the place. Mr. Bard is strongly opposed to allowing Collector Lynch to retain his place, and both he and Senator Belshaw today gave the President their reasons for his removal from office. The Presting upon the plan of not disturbing federal office-holders and not making appointments until Senators from different States are agreed upon what ought to be done.

Senator Perkins, it is needless to say, does not agree with Senator Bard in asking for the removal of Collector Lynch, as it is understood that the President today told Mr. Bard he would take no action whatever in the case until the Senators reach an agreement between themselves. This sort of decision, if persisted in by the President, will result in keeping Lynch in office indefinitely, for Senator Perkins declares he will not agree to his removal, nor will he agree to allow charges preferred against him and stand the result of the investigation of those charges.

HOUSE—The House today resumed the debate upon the bill to provide ismporary revenues for the Philippine liands, under an agreement that the bill should be voted on at 4 o'clock this steremon. The attendance in the galaries did not indicate much public interest in the debate.

Mr. Henry of Texas was the first speaker. He characterized the bill an oppressive and outrageous. Months, instead of two days, he said, would not be tee long for the discussion of a measure of vital interest to 16,000,000 people. He dwelt upon the injustice of the Gouble export and import tax on rice, sugar and tobacco trusts.

But to avoid the embarrassments, hardships and difficulties of the situation, he believed we should get rid of the islands as soon as we could do so with honor to ourselves and benefit to the Filipinos.

Mr. Williams paid his respects to the Supreme Court, which, he said, arrived at its decision by a "shifting majority of one." It decided that the islands were sometimes domestic and sometimes foreign. It made of the old included in the states and China, called at the White House today, and presented to the President a memorial in which the hope is expressed "that no contract, commercial or other rights warranteed to our citizens by treaty with the Chinese empire will be permitted to be absidged under cover of spread in the country," for peoples in the East. ARMY NOMINATIONS. IBT THE NEW ASSOCIATED PRESS—A.M.I WASHINGTON, Dec. 18.—The Sen-ate Committee on Military Affairs to-

wASHINGTON, Dec. 18.—The senate Committee on Military Affairs today agreed to report favorably all the army nominations before it, except those to staff positions, concerning which questions have been raised.

The exceptions which were not passed upon were the nominations of Capt. William W. Crosier, to be Chief of Ordnance Bureau, with the rank of brigadier-general; Col. George L. Glilespie, to be chief of engineers, and Gen. George B. Davis to be Judge-Advocate-General, and other nominations dependent upon those three.

Owing to the fact that the committee will not meet again before the adjournment for the holidays, action by the Senate on these nominations will necessarily be postponed until after the reconvening of Congress January 6. It is specifically stated by members of the committee that the delay is only for the purpose of investigating the circumstances attending the various nominations.

IBY THE NEW ASSOCIATED PRESS—P.M.!

WASHINGTON, Dec. 18.—In the case of Capi. Crosier there has been some criticism on the ground that the other officers of superior rank are discriminated against by his nomination. There is a question in connection with Col. Gillespie's nomination as to the time for which his tenure of office should continue, whether for four years only or permanently.

The nominations which the committee has received include several hundred names. The only one over which there was discussion was Gen. Funston. Complaint was made that his promotion to a brigadier-generalship is an undue reward for his part in the capture of Aguinaldo, but the promotion was defended by Senator Harris of Gen. Funston's own State of Kansas. Senator Harris quoted from the records to show that both Gen. MacArthur and Gen. Wheaton had indorsed the nomination, and that both had been cognizant of the expedition in search of Aguinaldo before it was undertaken and had favored it. After hearing these explanations, the committee decided unanimously to report the nomination.

It is asserted here that Chile will not reject the modifications to the original Chilean note suggested by Argentina, but that she will make certain objections thereto, which will render necessary further conferences and discussions. It is conceded, however, that even these objections from Chile set forth that country's sincere desire to effect a peaceful settlement of the

lster to Argentina, and Señor Alcorta held a long conference today. The Tribuna denies the assertion that the negotiations will be concluded here, and says that Señor Portela has here, and says that Senor Porteis has sufficiently simple power to effect a conclusion at Saintiago de Chile.

The Diario publishes a telegram from Visparatso to the effect that Chile has succeeded in concluding negotiations for the purchase of the Russian battleship Retvizan, built by the Cramp Shipbuilding Company of Philadelphia, and that Chile has obtained a formal promise from the builders of the cruiser, and of three torpedo-boat destroyers, which were bought in the early part of this month to deliver the vessels in question some time next January.

tarrh Cure Famous.

Stuart's Catarrn Tablets, the new Catarrh remedies:

First—These tablets contain no cocaine, morphine or any other injurious drug and are as safe and bepeficial for children as for adults; this is an important point when it is recalled that many catarrh remedies do contain these very objectionable ingredients.

Next—Being in tablet form this remedy does not deteriorate with age, or an exposure to the air as liquid preparations invariably do.

Next—The tablet form not only preserves the medicinal proprieties but it is so far more convenient to carry and to use at any time that it is only a question of time when the tablet will entirely supersed liquid medicines as it has already done in the medical department of the United States army.

Next—No secret is made of the composition of Stuart's Catarrh Tablets; they contain the active principles of Eucalyptus bark, red gum, blood root and Hydrastin, all harmless anti-aptics which, however, are death to catarrhal germs wherever found, because they eleminate them from the blood.

Next—Tou cannot cure catarrh by local applications to the pose and throat, because

were specific known to modern sci-ince in the antiseptic form of the disease. Next.—The use of inhalers, and spraying ap-aratuses, besides being ineffective and dis-pointing, is expensive, while a complete eatment of Stuart's Catarry Tablets can be d at any drug store in the United States d Canada for 50 cents.

(BY THE NEW ASSOCIATED PRESS—A.M.)
NEW YORK, Dec. 18.—A dispatch to
the Herald from Colon, Colombia, says
that a woman colonel, Senora Ramona
Mendoza, fought bravely with the insurgent forces in the conflicts between surgent forces in the conflicts between the Colombian government and rebel troops at Nombre de Dios last week. Her husband and brother were killed last Thursday. When the government troops drove the insurgents from the trenches on Friday, Señora Mendoza escaped to San Blas, in a small boat with Indians.

Señora Mendoza has been an intrepid fighter during the last two insurrections on the isthmus. She displayed gallantry in the recent battle at Buena Vista.

According to the latest advices the rebels are still offering resistance to the government near Nombre de Dios.

BERT C. LEWIS NOT ARRESTED.

He Says He Isn't and So Do the Police.

Same Old Overalls and Latest Rumor.

Remarkable Puzzle Produced by Evening Paper-Lewis Interviewed at Home.

The ghost of the horrible triple mur-der at Downey a month ago walked the streets of Los Angeles early yes-terday evening, and through the folds of its winding sheet bellowed into the ears of holiday shoppers that the blood-thirsty fiend who so cruelly slaughtered the Wilcox family, had been arrested, and that he was in custody of the offi-cers of the law.

and that he was in custody of the officers of the law.

Bert C. Lewis, son of the murdered woman, according to the shade, was responsible for the butchers, and with him were implicated several men and women, it was hard to say how many. An evening paper took up the story, which was based on the report that somebody had told somebody that he had heard somebody else say that it was rumored that two country boys had solved the mystery which has baffeld detectives for four weeks. Bloody ciothing, it was said, had been found in Bert Lewis's house, Bert was under arrest, the paper said, and those involved in guilt with him were four women and two men, or four men and

BERT C. LEWIS.

HARKED BACK TO OVERALLS.

HARKED BACK TO OVERALLS.
According to the involved account printed in the paper which sprang the sensation the story originated with a man named Taylor, who drives an express wagon between Downey and Los Angeles. When Taylor drove into Downey about 6 o'clock last evening he was met by Constable Henry Roemer, who repeated to bim the rumor which was current in Los Angeles, but the express driver did not recognize the child of his tongue. Taylor said, however, that he had talked with a man in Los Angeles yesterday morning about the crime, but the substance of his conversation pertained to the finding of the oil-stained overalls which it was conversation pertained to the finding of the oil-stained overalls which it was reported a tramp had left at the Reich ranch near the Nine-mile house on the Downey road. Taylor denied that he had connected Bert Lewis's name with the crime any more than to discuss his possible connection therewith, and he said further that the story as printed was without any semblance to the remarks he had made in a casual way.

The Sheriff and other officers who are working on the case said there was no foundation for the report that Lewis had been arrested, and treated the entire affair as a huge "fake." Lewis has not been arrested, and for as the officers care to say he will not be arrested unless more substantial evidence is found to implicate him in the crime.

The first news that Bert Lewis re-

crime.

The first news that Bert Lewis received of his reported arrest was when he appeared for duty at 7:20 o'clock last evening as special officer at the Burbank Theater, a position which he occupied at the time of the murder, and which he abandoned for but a few days after the butchered bodies were found.

which he abandoned for but a few days after the butchered bodies were found. BERT LEWIS INTERVIEWED.

"This is the worst blow I have had since the morning of November 19, when I was told that my mother had been murdered." said Lewis last evening. "and I can't understand what gave rise to the report that I had been arrested or even strongly suspected of being the perpetrator of the crime. I realize the position I am in. I know that some persons think I had a motive in committing the murder for the reason that my mother's property would come to me if she died. But I don't think my friends believe me guilty. I think Wilcox's brothers, who are far away, and who think I am making an effort to obtain the insurance on his life, are responsible for the trouble which this report has brought on me.

"So far as that insurance is concerned, I can say that I have placed the entire matter in the hands of my attorney, and if the money belongs rightfully to my mother's estate I shall not let it get away without a legal struggle. That question, I presume, will not be settled until it is determined who died first, my mother or my step-father.

"But I am innocent of the crime. They saw now that the murder must have been committed Friday night, instead of Saturday night, as has been generally supposed. I was attending to my duties at the Burbank on Friday, Saturday and Sunday night, just preceding the Tuesday on which the bodies were found, and the first news I had of any trouble was Tuesday morning, when some one telephoned to me that my father was dead. The first thought flashed through my mind yas that Bud' Lewis, by own parent, who had been released from the County Jail on the preceding Saturday, had met with some accident. Further information was to the effect that two or three women, a man and a baby had been found murdered on the Wilcox, and the baby had been murdered. With my wife I drove at once to Downey, and as we the horrible sight which still haunts me My God! whoever com-

since that time without those terribly mutilated corpses constantly before his sight.

"My father, 'Bud' Lewis, has been suspected, I know, but I believe he is innocent. Surely if the crime was committed Friday night he must be, as he was secure in the County Jail at that time. He has been unfortunate in many ways, but he is not the brute who could have done that awful butchery. If I had proof that he were the guilty person I should shoot him like a dog. "Wilcox and I were the best of friends, and had been for a number of years. I worked with him, off and on, for several months before he sold out his cigar stand at the corner of First and Los Angeles streets I worked there in the day time and attended to my duties at the theater in the evening. Wilcox was not very prosperous, and I often loaned him money in small amounts. Even now I hold his note for \$380, given to secure money which I advanced.

"I cannot help but think that robbery was the motive for the murder, and that the man or men responsible for it came from among the large number of loafers and hard characters who hang around the corner of First and Los Angeles streets, and who knew Wilcox's habits and the state of his business. The bag of gold containing 200 or so which he was known to have taken to the ranch with him would lead any one of those desperate characters to commit any kind of crime for its possession."

BORN IN THAT ROOM.

Bert C. Lewis is hardly more than a boy in years, having been born in

boy in years, having been born in March, 1830, in the very room in which his mother and her family were murdered, but he is about 6 feet in height and weighs 210 pounds, and his size makes him appear much older. Among his good friends is Oliver Morosco, league and manager of the Burbank Theater, by whom he has been employed for nearly three years. Lewis remained on the Oldham ranch with his mother and grandmother, Mrs. Sena Oldham, for several years after his mother and father were separated, and when he came to Los Angeles four or five years ago he acted for a number of months as elevator conductor in the Stimson and Douglas buildings. He also has done some work as a private detective. His education has been limited, but he appears to be an intelligent young man, and in his appearance there is mothing to indicate guilt of the murder of his own mother, his step-father and their child, of whom he says he was particularly fond. Lewis was married last March and his wife is said to be suffering severely from the strain through which she has passed since the discovery of the triple murder. Their home is at No. 625 Crocker street.

Lewis says his mother and her child were at his house on the day they left Los Angeles to make their home at the Downey ranch, and he went with them to the railroad station on their departure. Their relations were pleasant, he says, and his mother told him at that time that she was going to deed to him a half interest in her roperty.

It is an open secret that the detectives have suspected Bert Lewis of com-

that the Board of Horticultural Commissioners be abolished, as it exercises no mandatory authority and is only an advisory board, and because its expenses are out of all proportion with the benefits. The report cites certain bills allowed to each commissioner in this regard, in which each has purchased poisoned wheat for the killing of squirrels or some equally unnecessary thing and charged the county heavily for its distribution. It is alleged that the actions of the board are a fraud upon the people.

The report goes into the hobo question at length, and states that justices of the peace and constables in the country districts, from the city north toward Los Angeles, are taking an unfair advantage of their office and are in collusion with the circumlocution bureau. It is alleged that the hobos come into Oceanside at the express wish of the officers; they are arrested by the constables and taken before the justices, plead guilty to the charge of vagrancy, have their sentences unspended for fifteen days, and go to other sections to help other officials to fleece the public. The constable gets 31.30 for each arrest and the justice 33. After the season is over, the hobos float northward and the farce is remarked.

The toys which are now exhibited at Los Angeles will be brought to Hotel del Coronado, where they will be given a reception for the benefit of the Coronado Free Library. In the evening a rull-dress ball will close the affair, which bids fair to be one of the brilliant events of the season. Mrs. A. E. Horton of Boston, who has made this collection, spends some of the summer months each year at Coronado, and last summer while visiting here she received from Germany the smallest doll in the world, measuring but an inch in length. A noted German watchmaker had heard of her collection, and added this as a specimen of his delicate workmanship. The revenue from the dolls' exhibition is devoted exclusively to charity.

of Their Watches.

Reports have been made to the police during the past week which show that a sneak thief is making a specialty of robbing workingmen of their watches. Eight or rine cases have been reported, in which the similarity of the work leads the officers to believe that it was done by the same crook.

The scene of operations is wherever workingmen may leave their coats. The thief watches his chance and steals the watches left in the garments. Yesterday W. J. McCandiess of No. 412 East Seventh street reported that his watch had been stolen while he was at work on one of the large buildings being constructed on Los Angeles street between Second and Third. A few minutes later F. D. Learned of No. 757 East Twentieth street reported the loss of his watch while he was working at the California Wrecking Company's yard on San Fernando street. CASH FUND. DEFICIT WORKS A HARDSHIP.

DEFICIT WORKS A HARDSHIP.

For some unknown reason the Finance Committee of the Council has failed to take such steps as will relieve the overworked condition of the cash fund. There is no money in the fund to pay demands that have been sudited since August 8, and those who have furnished the city supplies of various kinds are compelled to wait for five months to receive their money.

According to the books of the City Auditor the shortage in the cash fund yesterday morning was over \$43,000, the largest that it has been for many months. Against this fund there are now outstanding 71s separate demands. It is stated with a show of truth that the Finance Committee made a great mistake when it fixed the apportionment to this fund. Formerly as much as 22 cents out of every \$1 of the tax moneys was apportioned to the cash fund. This year a different method was tried, but thus \$ar\$ it has proven a failure, as applied to the cash fund. A number of small funds were established, and a certain number of cents out of every doing gots into each of them. The cash fund gets but \$24 cents.

When the change was made a num-

were established, and a certain number of cents out of every dollar goes into each of them. The cash fund gets but 3% cents.

When the change was made a number of heavy demands were out against the fund and the shortage has kept increasing despite the heavy tax collections. Men who can ill afford to wait for their money, and can no better afford to pay a heavy discount to a broker, are forced to do one or the other.

Not until yesterday did Louis Jacobi get a part of the money due him on the new Hill-street; engine-house. When the contract was closed with Contractor Jacobi he was informed that he could secure the entire \$14,000 early in November. Yesterday he got \$600, but it required a bit of special legislation to make the payment possible. The demands were originally drawn on the cash fund. Last Monday the Council transferred \$500 to the "building" fund which, it is understood, was created for the purpose, and also approved demands on the fund for the amount secured by Contractor Jacobi yesterday.

A member of the Council in discussing the case yesterday stated that he believes the action of the Finance Committee in this matter has been a political play in the interests of another contractor who stands well, politically, but whose bid on the engine-house was considerably higher than Jacobi's. An effort was made to have the higher bid accepted in the first instance, but it was defeated.

When questioned regarding the replenishment of the decrepit cash fund, the members of the Finance Committee reply that the saie of franchises will furnish more than enough money, to meet the deficit. Most of the Councilmen are firm in the belief that the concessions asked by the Pacific Electric Ralvay Company will bring a large return. But there is a serious doubt whether this will prove to be the case. By the peculiar provisions of the Broughton law, the company can put an action of the proposal for it if they so desire. If, there are no other bidders this offor need not be raised. If compatitive bidders appear the amount c

Will Consider School Bonds.

A special meeting of the Finance committee will be held Saturday norning at 10 o'clock for the purpose morning at 10 o'clock for the purpose of considering the request made by the Board of Education for a special election to submit to the people two issues of school bonds. The board asks that \$500,000 be asked for primary and grammar schools and \$200,000 for a polytechnic high school. It is not intended to expend the entire sum at once, and the board asks that the bonds, if issued, be sold as fast as the needs of the school department will warrant, instead of all at once. In this way, the bonds unsold will not draw any interest, and will not become a burden upon the taxpayers.

Brick-yard Ordinance.

At 10 o'clock this morning the Committee on Legislation will meet to hear arguments on both sides of the brick-yard question. By some it is asserted that brick yards should not be maintained inside the city limits without a special permit from the Council. An ordinance has been drafted making it necessary for the owners of brick yards now in existence to take out a permit after the lapse of a specified time. All new applications must be passed on by the Council, according to the proposed measure. There is a good deal of opposition to the measure from brick men, and they will be given a chance to speak their mind this morning.

plimentary to her daughter, Mrs. D. F. Warnock, nee Olave Belle Clark, who was recently married in Chicago, and has returned to Los Angeles. Mrs. Clark and her daughter are noted for their hospitality and art of entertaining, and the reception yesterday was one of the most desightful informal affairs of the week. Many prominent society ladies called during the afternoon from 3 until 6 o'clock to extend wishes for happiness to Mrs. Warnock upon entering into her new state of married life.

Ruch-Roberts.

Mrs. Anna Elizabeth Ruch and Oscar Wilson Roberts were married Tuesday afternoon in ammanue! Presbyterian Church. Rev. Hugh K. Walker, pastor of the church, officiated. The wedding was celebrated quietly with only relatives and a lew friends present. The bride wore a handsome brown tallormade gown, trimmed with gold-lace applique. Mr. Roberts and his bride left on the Owl for San Francisco, where they will spend a fortnight. Upon their return they will reside at No. 1307 West Seventh street, where they will be at home on Fridays after January 15. Mrs. Roberts has resided in Los Angeles during the past two years and she is well and favorably known here.

She opened the work of the club with a stereopticon talk on the development of design in oriental rugs. The views she exhibited, showing some very beautiful and unique designs, were many of them obtained from Prof. F. W. Putnam of Peabody Institute, Cambridge, Mass., which she visited in company with Mrs. A. S. C. Forbes. In a paper, Mrs. Fisher further traced the history of designs through prehistoric art, early Indian, Egyptian, Biblical-Jewish, Assyrian and Persian, down to modern art.

Mrs. Forbes followed Mrs. Flaher with a talk on the colors of oriental textiles as compared with those of the American Indians. In illustration of some remarks, she exhibited a Chilikat bianket used as a medicine man's robe and with fringe eighteen inches or more in length. The weaving of the blanket was the work of three years.

A unique event in the club work was a paper by a young Armenian, F. Y. Parnay, an expert on rugs at present staying with Paul Courian of the Imperial Persian Rug Company. Mr. Courian had lent twenty-two of his choice rugs for the use of the club. Many other handsome weaves were on exhibition from the Niles Pease Company and Barker Bros. WO MILLIONS NEEDED FOR PROPER POSTOFFICE.

THAT REMODELED BUILDING WILL NOT FILL THE BILL.

master Groff-Our City is Growing So Fast That Previous Estimates Have Proven Too Small.

In the opinion of the local postoffice officials, the appropriation of \$250,000 by the government for remodeling the Los Angeles Federal building might as well never have been made, it is so insignificant. It will give the city a postoffice not only below the dignity of a community of this size and importance, but one absolutely unfitted to the needs of the business for which it is intended. The dispatch in The Times of yesterday, suggesting the possibility of a new and larger appropriation if pressure is brought to bear upon the department in Washington, has given rise to the expression of strong opinions upon the

in Washington, has given rise to the subject.

When questioned yesterday Postmaster Gro.I and Assistant Postmaster Shoulters said: "If the new postoffice were finished today according to the present plans of construction, it would be roo small for the business. We will be crowded in our new quarters from the first, and they will no sooner be completed than a new building will be needed."

When asked if an extra \$500,000 would supply an adequate building, Postmaster Groff said emphatically: "No. sir. Two million would be nearer the proper appropriation. There are cities in the United States no larger than Los'Angeles, and scarcely more important commercially, that have Federal buildings costing \$2,000,000 and over. We are growing tremendously, and the future must be provided for. "I believe the government should condemn the rest of the west half of the lot upon which the Federal building is now situated, and make room for a structure suitable to the community. The present grounds are too small."

The contractors who have the new postoffice in hand are demolishing the old building. The roof has been removed and they are now at work tearing out the interior.

ENCOUNTERED COLD WAVE. "Uncle Billy" Workman and City Attorney Mathews in New York With Water Bonds-A Reminiscence.

Water Bonds—A Reminiscence.

Boyle Workman received a telegram yesterday from his father, City Treasurer Workman, announcing the arrival of himself and City Attorney Mathews in New York with the water bonds. The message added that they had plunked right into the cold wave, and were not enamored of it.

The last time that "Uncle Billy" was in New York the weather was just the reverse of what it is now. That was in the summer of 1872, when he and the late Gov. Downey were delegates to the Democratic National Convention which nominated Horace Greeley for the Presidency. The weather was so warm that "Uncle Billy" and his colleague cut their stay short and hurried back to their semi-tropic home.

Mr. Workman has lived in this mild climate for so long a time that he cannot stand either extreme heat or extreme cold. Long years of residence in Los Angeles have made his temperament as sunny and genial as the climate, and he will not tarry longer in the East than is necessary to sell the water bonds, for fear the abominable weather back there will spoil his disposition.

Messrs. Mathews and Workman expect to have the bond deal concluded by the end of the present week.

The California Publishing Bureau

Colored Men Incorporate.

The California Publishing Bureau and Investment Company has filed papers of incorporation with the County Clerk, and gives as its capital stock \$20,000, with Los Angeles as its principal place of business. This is the organization of colored men effected a few weeks ago, for the purpose of publishing papers and general Hierature for their race, making business investments and colonizing colored people at various points on the Pacific Coast. Included in the new organization are three general newspapers for the colored people, the Engle of this city, the Banner of Premo, and the Sentinel of San Francisco. J. J. Neimore of No. 243 East Fifth street, editor of the Engle, is misde president of the new company, which includes many of the representative colored men of Los Angeles.

Mayor a Mighty Nimrod.

Henceforth no one will doubt the story that Mayor Snyder shot a big grizzly that weighed four tons, even if he asserts that the feat was accomplished in Passdema. His Honor went duck hunting and actually got a ducknot one, but several. By analogy it is proven that if he went bear hunting he must have killed the hear. But the sext time the 'Mayor goes after bruin he will bring home the scalp to still the doubting Thomases. That the Mayor has learned the lesson is proven by the fact that he brought home those ducks yesterday, and distributed them among his friends with a lavish hand. He states that "Uncle Jake" Frankenfeld, and "Uncle Jake Kuhrts were very well behaved, and restrained their boyish capers during their stay at the Recreation Gun Club's grounds, near Ballom. "I had an awful good time." itselared the chief executive regretfully, when he appeared at the City Hall last night.

Anniversary High Mass.

Tomorrow morning at 10 o'clock in the old Mission Church on North Main street, an anniversary high mass will be celebrated for the repose of the soul of the late Pedro Ibarra, a member of one of the oldest Spanish families of Southern California, who died just one year ago at the family home, No. \$12 Buena Vista street, where he had resided over forty years. He was past 77 years of age at his death, and was a native of Los Angeles, as were both his parents. Señor Ibarra was the father of six sons and two daughters, all of whom survive him, and his widow, Señora Marilla Ibarra, still resides at the picturesque old Buena Vista-street home, one of the few typical Spanish residences yet remaining in the new Los Angeles. At tomorrow's high mass Rev. M. Leibana will be the celebrant, with Rev. E. Coté as deacon and Rev. T. F. King of the Cathedral as sub-deacon. The choir will render special music, and the church will be handsomely draped in white and black Many friends of the family from outside towns are expected to be present, among the number being a pariy from San José.

The call which comes to-day, to education in all its forms, from the smallest school to the greatest university, is for men, not extraordi-nary men, for museum use, but normal men, men trained in the school of his-torical mindedness.

PRESIDENT AVERY SPEAKS. Lewis B. Avery, principal of the Union High School at Redlands, and president of the Teachers' Association, preceded President Wheeler with his annual address. He traced the evolution of educational methods and said:

mother's child-study club has supplanted the well-worn slipper. The old methods produced automatons; the new ones men; the old way was repression, the new, expression. The old education was a process of building, with the teacher as architect, the new regards the child as a life to be nurtured, fed and above all, to grow.

"The child is a human plant with the God-Given right to grow into God's ideal. The calling of teacher should be considered a divine commission to lead children God-ward. The whole world is goin to school to the child-and a little child shall lead them."

Miss Blanch Rogers rendered an organ solo, and Joseph Dupuy gave a vocal selection.

NATURAL AS LIFE.

Prof. V. L. Kellogg of Stanford was to have delivered a lecture on "Nature Study," illustrated with stereopticon views, but his apparatus went back on him; so, instead, he gave a talk on Germany. He brought out some of the differences between German and American universities. He declared that the former was for the development of the specialist and the latter for the uplifting of the whole student body.

CLEANLINESS IS STRENGTH.

CLEANLINESS IS STRENGTH.
President David Starr Jordan
Stanford, who was to have spoken Stanford, who was to have spoken at the morning session, put in an appearance late in the afternoon, and spoke upon the theme, "The Strength of Being Clean." He urged forcibly upon teachers the importance of doing their work so well as to give full value for what they received, and not wish to get something for nothing.

"The highest duty that a young man or young woman can have toward the pupils is to live so that nothing in the teacher's life will hinder their moral development. The teacher owes it to himself, even more than to society, or to his school, to be clean."

He referred to the weakness of obscenity, lying, drugging the body, and of fretting the nerves.

Prof. Carl C. Plehn also addressed the teachers upon the subject of schools in the Philippine Islands.

"WATCHING" THE "BOSS."

"WATCHING" THE "BOSS."

Just in the last moments of the institute, the teachers had a surprime in store for City Superintendent Foshay. M. C. Bettinger unexpectedly stepped to the platform, and in a few well-chosen words presented to Mr. Foshay a handsome gold watch. The ever-ready superintendent accepted the gift, and in a facetious way expressed his thanks. He said:

"Last year you gave me a covering for my head. This beautiful gift I will wear over my heart; so, both my head and my heart are now all right."

This is a somewhat unusual gift, and as such is highly appreciated by Superintendent Foshay. Every one of the 565 teachers in the city had a hand in securing it, and added much to the pleasure of the presentation.

Superintendent Foshay took occasion to compilment the teachers upon their high professional conduct, during the institute. It had not been necessary during the entire session for him to utter a word of admonition.

The institute finally adjourned at 4 o'clock p.m.

Carl C. "The question so commonly asked, will it pay?" might possibly be answered in the spirit in which it is asked. We now have the islands, and it would be just as pertinent to raise the question as to California, or any other State. When I left the Islands in July, with the exception of a small section of the southern portion of 2000, the country was ready to be turned over to the civil authorities. It is from this portion the insurgents have drawn their recruits.

"Agriculture and manufactures have been fostered and petted into new life, schools have been opened and religious services established. I can say from personal experience that I never knew a city better governed than Manilia, under Provo-Marshals Bell and Davis."

The speaker voiced a strong commendation of Gen, MacArthur, in asking for \$1,500,000, not for munitions of war, but to educate the children of his enemies. He stated that 800 teachers had been obtained, and 200 soldiers detailed for duty in the schools as teachers had been obtained, and 200 soldiers detailed for duty in the schools as teachers.

the staff and halyards being given by members of the congregation.

The presentation speech was made by Mrs. Johnston, president of the Relief Corps, and Mr. Sallada accepted on behalf of the official board, giving a history of the starry banner of the free, the growth and work of the Relief Corps, and a history of Memorial Day. In the early sixties Mr. Sallada gave the sight of both his eyes in defense of the flag he was talking about, and from this fact, especially, all hearts were touched.

Rev. Will A. Knighten responded for Vincent Church in patriotic vein, and was loudly applauded. He expressed the sentiment of his congregation in saying that he hoped this banner, floating from the church tower, may help to make this city more loyal to God and to the flag, by teaching its young that the red, white and blue emblem waving on Sunday morning means that God's house is open, and His people have gathered there to worship Him. After singing patriotic songs and hearing reminiscences of war days, all present were invited by the women of the church to partake of refreshments, and an hour was spent in feasting and social chatting.

Hungry and Needy.

The Salvation Army announces that its plans for a Christmas dinner and holiday cheer for the hungry and needy of Los Angeles are progressing vigorously, and that its bounty of food, clothing and money will be dispensed on a bigger scale than ever before. Not only will there be a gigantic table laden with eatables for hundreds of hungry persons to enjoy, but by a system of visitation and careful distribution of tickets the needy will be found and food and clothing will be found and food and clothing will be carried to them.

The Salvation Army has six branches

The Salvation Army has six branches of its work represented in Los Angeles, and members of each branch have entered heartily into the preparation for the big feast, the most noticeable method for the solicitation of means being the blue-uniformed men and women who are stationed at the downtown street corners with receptacles for money which holiday shoppers may care to donate. Those who do not care to contribute in this manner are requested to send their donations to Staff Captain H. Connett, No. 101 San Pedro street, under whose direction the dinner is to be given.

BIG TOURIST HOTEL POTTER WILL BUILD.

M ILO M. POTTER'S dream of a big tourist hotel in Southern California will have its practical inception today, and by sundown this evening "Potter's folly" will be no more.

Both these changes in the life of the manager of the Van Nuys Hotel will striends. Although the tourist hotel has been talked about for many months, and the sale of Potter's horses has been talked about for many months, and the sale of Potter's horses has been announced, there are many skeptics who thought that the former would never materialize, and that Potter would never part with his horses.

It will all happen, because this is the 19th of the month. Milo Potter believes that there is some fetish or charm about that day for him. All the important events of his life have taken place on the 19th, including a romantic marriage that was celebrated just one month ago today. At that time Mr. Potter astonished all his friends, and they are about to be astonished again, if it seems to be his prerogative to starile the town. Perhaps it was the happy event that marked the 19th of November that caused the downfall of "Potter's folly," and the substitution of the project is successfully launched on that it will be a successfully launched on the plan to build a big hotel, but Potter, all the town. PLANS NOT COMPLETED.

"The company is a very rich one," said Mr. Potter last night, when asked about the Tuture plans of the corporation that will be formed today, "and I cannot say what it may do in the future. That is undecided."

"Has the company any intention of securing control of the Van Nuys?" was asked.

"No," replied Mr. Potter. "I. shall continue to own the lease and furnishings of this hotel, and manage it just as before."

"Is it the ultimate intention of the company to establish a chain of hotels along the Coast, or will its efforts be confined for the present to this one venture?"

"That I cannot answer now." replied Mr. Potter. "The company will be incorporated with this one project in view, and the entire \$500,000 will be available for the construction of the tourist hotel at Santa Barbara. Other plans of even wider scope may develop in the future, but nothing of that kind has been considered up to the present time."

GOING TO PUSH WORK. GOING TO PUSH WORK.

Early this week Mr. Potter will secure an engineer and have the ground surveyed and the site for the hotel definitely and exactly located. The next step will be to secure an architect. After today the construction of the hotel will be pushed as rapidly as possible in order that it may be ready for the opening on that 19th day of January, 1903, upon which Mr. Potter has set his heart. Be sure it will not be opened on any other day but the 19th.

be opened on any other day but the 19th.

Late last night the name of the wealthy corporation that is about to embark in the hotel business had not been selected, and Mr. Potter has not even thought about the name he will give his new tourist hotel.

At the request of the stockholders, Potter will withhold the amount of capital stock subscribed by each until the papers are filed. Consequently, it cannot be stated whether Potter will hold a majority in his own name or not. However, that matters little, as his business associates have every confidence in his ability as a manager, and he will virtually control the hotel in any event.

For many years a big tourist hotel to supplement the accommodations afforded by the Raymond and the Hotel del Coronado has been discussed, but nothing came of it until Mr. Potter put his shoulder to the wheel. Through his enterprise the company has been formed and the purchase of the pron-

Doheny showed no effects of the alfray when seen hast night. He said:

"Carter came to my office and urged me to buy the stock with the threat that he would adverse it for saie if I did not. I did call him a blackmatte, the is an attorney and knows well that his action was nothing else but blackman. It would be unlawful for the company to buy in its own stock. His proposition made me indignant. I did not dispute his right to advertise the stock, nor attempt to dissuade him from it. I merely resented his attempt to force me to buy it by threats of depreciating the value of our treasury stock.

preciating the value of our treasury stock.

"I told him to go ahead and advertise it, and as he was leaving he called me a dirty name. Then I followed him into the hall and had the ratisfaction of bumping his head against the wall several times. Neither of us were hurt, and I am sorry the affair has been exaggerated in the papers."

Carter claims that he did the head-bumping act himself, and his story is practically the same as Doheny's except that he disclaims any intention of threatening to hurt the company. He says his company had the stock delivered for sale and he merely thought to give Doheny first chance at it, before putting it on the market.

In view of the fact that one out of every six deaths is due to tuberculosis, and that 75 per cent. of our population is afflicted with lung trouble, those who have weak lungs have no excuse for being careless in this matter. which it may be difficult or impossible to cure.

As shown by the tabulated results, the disease can almost invariably be cured in its earlier stages by the treatment herein described. During every day of delay, however, the bacilli are increasing in compound ratio, the system becoming weaker and the vitality undermined. Too much stress, therefore, cannot be laid upon the importance of beginning treatment at the earliest possible moment. The more promptly action is taken to check the disease the greater the economy in time, money and vitality. The following tabulation serves to emphasize this spoint:

tournament, which will begin about January 10 at Henry Berry's billiard pariors, and will last through a period of two or three weeks, will be opened tomorrow morning. Although there will be no foreign talent in the tournament, considerable interest has already been manifested by local experts.

The city teachers and the county teachers will mix things next Saturday afternoon at Fiesta Park in a game of baseball. A nine from each association has been picked out and the edifying game will commence at 1 o'clock. No admission fee will be charged.

The drawing for the coursing match which is to come off at the Santa Fé avenue track, took place last night and avenue track, took place last night and resulted as follows: Jim Choate vs. The Emperor, White Paw vs. Young George Dixon, Molo A. vs. Miss Revenge, Miss Ornionde vs. Angle Mae. Dick L. vs. Fox. Hot Haste vs. Dingwalt Dix, Rocklin Kid vs. Queen Rosalind, Nicasio vs. Happy Dick, Miss Rea vs. Gladiator, Young Fleetfoot vs. Fighting Bob, Warship vs. Pretty Venus, Sir Van vs. Dan, Mercilesa vs. Rock Island King, Pazassas vs. St. Louis, Sir Prime vs. Storm King, Joe's Pride vs. Racy Rose.

There will be a thirty-two-dog open stake and an eight-dog special to be drawn at the park Sunday morning. The new 'Frisco cracks, Warship and Hot Huste. are entered, and also St. Louis the famous local dog. The stake is one of the best drawn for a long time and it will be hard to pick the winners.

BURGLAR SCARED AWAY.

A burglar was discovered at 3 o'clock this morning in the residence of Lyman Farwell, northeast corner Figueroa and Thirtieth streets. The thief had seasched several rooms, and was working in a bedroom when he overturned a chair and awakened some member of the family, who gave the alarm. The thief then ran from the house, taking Mr. Farwell's coat and vest, containing a fine watch and some money. What other valuables he secured will not be known until an examination of the house is made by daylight.

War Eagle claim joins that of RUSH TO LA PAZ.

RUSH TO LA PAZ.

A rush of prospectors from Arizona and California to the gold discoveries near the old La Paz placer fields above Ehrenburg, is reported. The ledges are said to center in one large mountain, the ore being porous quartz, which assays \$100 or more to the ton. Nearly half a century ago gold in large quantities was being washed out by the placer miners of La Paz, but for ten years white men have not operated there, the government having declared the land a part of the Indian reservation. The melly-discovered ledges lie well out of the reservation, and in all likelihood were the sources of the supply in the placer fields on the lower land.

This strike is regarded as important, as the shaft was located on barren ground, between two large ledges which outcrop some distance apart. The Pinto Creek Copper, Company is composed of wealthy men of Houghton county, Mich.

As to the coöperative-refinery scheme advanced by him several months ago, Maj. Easton stated that he and his associates had by no means given it up. "We will see what the other fellows are going to do before we fully decide on erecting the plant."

By the other fellows, Maj. Easton has reference to Horace M. Russell and associates, who are reported to have interested capital sufficient to erect a \$100.00 refining plant. It is understood that the new corporation controls, besides the property of the Union Consolidated, the output from other wells. The corporation has on hand 30,000 barrels of oil, and if present plans are carried out will engage in the manufacture of asphaltum on a large scale.

FLOUR MILLS SHUT DOWN.

Prospects are That Hearly All Minneapolis Mills Will Be Closed Before
the End of the Week.

(BY THE NEW ASSOCIATED PRESS—F.M.)
MINNEAPOLIS (Minn.) Dec. 18.—
Four mills of the Consolidated Milling
Company were shut down this meraing.
There is every prospect that nearly
all the Minneapolis mills will be closed
before the end of the week. The
closing of the mills resulted in part
from a temporary depression is the
demand for flour frem abroad.

A. C. Loring, president of the Consolidated Milling Company, said today that a very serious element in the
conditions which had compelled a shutdown at this time was the shortage of
cars in the Northwest.

A story was alloat in milling circles
today that one of the most prominent
companies here proposed to build a
private line of cars for the handling of
its own freight business. SAN DIMAS BREVITIES.

One Woman Killed and Several Injured in the St. Louis Department Store of

Schaeper Bros.

BY THE NEW ASSOCIATES PRESS—A.M.

BT. LOUIS, Dec. 18.—One person was killed and seven were injured today by the fall of a passenger elevator in the department store of Schaeper Bres.

The drop was from the fourth floor to the basement. The dead:

MRS. CATHERINE WELCH, aged 33 years; head crushed.

The injured:

MRS. HENEROWE, aged 25 years; face lacerated, leg broken and head cut.

Naud Junction on North Main street yesterday while trying to prevent a runaway. He was holding a team of horses which became frightened at a train and started to run, dragging him with them. When he released his hold and fell the wagon struck him on the back, inflicting a painful injury. The blow knocked him to the ground with such force that it caused a slight fracture of the skull. He was taken to the Receiving Hopital and has been semi-conscious since.

L. Schmidt of No. 698 North Mair street was treated at the Receiving Hospital yesterday for a severe gags in the scalp, caused by falling on the street. H. C. Davis of No. 111 Maos street was treated for a similar injury austained in the same manner, his fall beving been due to an attack of epilency.

Sale of Christmas Jewelry Minus

October 24th we headed an advertisement with the following statement. The conditions are the same today as they were then with the exception that our line of novelties is larger and more can be goods bought then have arrived since this statement was first printed.

"We sent a special jewelry buyer to the manufacturing jewelers and silversmiths of the East. We do not believe in buying of jobbers and paying them an extra price. We go direct to headquarters there the jewelry is made. We buy at first cost. In some instances we are able to sell for the same prices that jewelry stores pay for their goods at wholesale. Jewelers as a rule buy in limited quasicatively limited sales, and are therefore obliged to charge larger profits than is commonly asked for other lines of goods. We buy jewelry as we buy cotton cloth, at first cost, direct from the mild middlessen or commission merchants have a chance to derive a profit from the goods that we sell. This fact accounts for the vast difference in prices.

"We guarantee every article of jewelry to be exactly as we describe it. If we say 'solid 14 kt. gold,' you will surely find the piece to be of that quality. If we say 'sterling silver' or 'rolled gold plate' and them as. It is not necessary to deceive. It is a bad business policy and it is dishonest. You can buy jewelry of us with as much confidence as though you were buying of the most noted extensions. You always have the money-back privilege if you are dissatisfied with the purchase."
